Summary

A highly motivated and results-oriented third-year Diploma in Information Technology student with a strong passion for software development. As the founder of a software development agency, **Code x AO**, I have a proven track record of creating innovative applications and websites. I possess a unique blend of technical expertise and entrepreneurial spirit, demonstrated through leadership roles and a top-10 finish in a national hackathon. I am seeking a challenging internship to apply my skills and contribute to a dynamic team.

Education

UPL University of Sustainable Technology | [Ankleswar,Gujarat] *Diploma in Information Technology*, 3rd Year

Experience & Projects

Founder & Owner, Code x AO

- Founded and managed a software development agency, overseeing all aspects of the business from client acquisition to project delivery.
- Led the development of multiple web and mobile applications for various clients.

Application & Web Development Projects

- **Blood Donation App**: Designed and developed a mobile application to connect blood donors with recipients, managing user profiles and real-time requests.
- **In-house Election App**: Created a private election application for internal use, ensuring secure and efficient voting processes.
- **School Attendance App**: Built a dedicated attendance application for a school to streamline record-keeping and reporting.
- **Website Portfolio**: Developed and deployed a portfolio of 5-6 websites using modern web technologies.

Leadership & Technical Achievements

- **National Hackathon:** Secured 10th position in a highly competitive national-level hackathon, showcasing advanced problem-solving and coding skills.
- **Campus Leadership:** Held three distinct leadership positions on campus, including **Algozenith** and **GSA** lead, successfully guiding teams and managing projects from conception to completion.

Skills

- **Programming Languages:** Python, Java, JavaScript, C++, C#, C, PHP, HTML, CSS
- **Web & Mobile Development:** React, .NET, Node.js, Express.js, Firebase, MySQL, Android
- **Tools & Platforms:** GitHub, Git , VS code , Code block
